BULLETS:

- Over the course of a two week period (9/01/2017 through 9/14/2017), EPA Regions 6, 7, and 2, teamed up with the TCEQ and Texas State Guard to complete 625 drinking water assessments at 514 public water systems, and also 441 assessments at 401 wastewater systems at the Houston Bravo Branch.
- Of the overall 2022 Community water systems (CWS) designated for follow up by the Houston Bravo Branch, EPA's work with the state has ensured the return of 1945 CWS to fully operational status, covering 99% of the population (7.23 out of 7.26 million served) as of 9/14/2017.

Monica,

I have draft bullets. Working with Eric's team to ensure correct numbers in the yellow highlights. I pulled info from Texas site but really need to confirm with Eric's team.
Will try to get you updates tonight if possible.

DRAFT

- Over the course of a two week period (9/01/2017 through 9/14/2017), EPA Regions 6, 7, and 2, teamed up with the TCEQ and Texas State Guard to complete 625 drinking water assessments at 514 public water systems, and also 441 assessments at 401 wastewater systems at the Houston Bravo Branch.
- Of over 2200 Community water systems that were impacted by hurricane Harvey, EPA's combined efforts with the state ensured the return of 2136 Community water systems to operational status, serving a population of xxxxxx. (Only 77 Community water systems are on boil water notices and 19 Community water systems are inoperable as of 9/13/17, these serve a population of 85,000.)

Subject: need 1 -2 bullets on DW/WW accomplishment

The PIO at the JFO needs to report out on the accomplishments the Region has achieved during this response.

Please provide a few bullets we can share which include the total population served through the water systems.

If you can provide it before 7pm today that would be appreciated.
